NEWS AND COMMENT.

Lord Kitchener reports that three agents of the peace commission were taken as prisoners to Gen. De Wet's camp and that one, a British subject, was flogged and then shot. The other two were burghers, and they were flogged by Gen. De Wet's orders. The brief report of the occurrence has caused deep indignation in London, and the newspapers generally take the position that the incident shows efforts at conciliation to be useless.

W. E. Martin is under arrest at Fayetteville, Tenn., charged with using the mails in an attempt to extort \$600 from Jas. Cunningham, a wealthy farmer. A letter was sent to Cunningham threatening that his house and farm buildings would be burned if he did not send the money.

A shipment of 3,026,000 bushels of coal, carried by 100 boats, thirty-five barges and eighteen floats, was started from Pittsburgh Sunday. Another 2,000,000 bushels will get under way today, making 10,000,000 bushels on this rise. Nearly all the coal is for Cincinnati and Louisville.

Col. Winfield T. Durbin was inaugurated Governor of Indiana yesterday. The occasion was marked by a big civil and military display.

The Kentucky electors chose Robert L. Owen as messenger to carry the certificate of the state's vote for president to Washington.

Karl Oscar of Sweden has recovered his health and will resume the reins of government in a few days.

Captain C. W. King, arrested at Mobile for alleged bribery, will be tried by the civil authorities.

Central of New Jersey railroad stock was bought by the Morgan syndicate at the rate of \$160 a share.

The trial of the alleged murderers of Jennie Posschetter, the mill girl, was begun at Paterson, N. J.

A bill introduced in the Tennessee legislature provides the death penalty for kidnapping.

St. Louis has failed to produce a man or woman who has lived in three centuries.

THOMAS REMAINS.

CORNER PHELPS THINKS THERE SHOULD BE AN INQUEST.

The remains of Henry Thomas, colored, who died in the railroad hospital here yesterday from a gunshot wound received at Ripley, Tenn., will probably be buried here.

Coroner Phelps is at a loss to know what to do in such cases. The man who shot Thomas may be guilty of murder, and it is clear that an inquest should be held by some one, but the coroner has no way to get the witnesses here, and the railroad company does not carry the corpses back in such cases, for an inquest.

TICKET AGENT RESIGNS.

MR. G. B. THOMAS BEING CHECKED OUT TODAY.

Mr. G. B. Thomas, day ticket agent at the Illinois Central depot, has resigned his position, and the auditor is here today checking him out. His successor will probably be Mr. Sheppard, who has been operator at the scale office. Mr. Thomas will probably return to his home in Russellville.

K. OF H. ELECTION.

The Knights of Honor, Rapidan lodge, met last night and elected the following officers:

Dictator, P. J. Beckinbach; vice dictator, R. W. Martin; assistant dictator, J. Henry Smith; chaplain, J. K. B. Martin; reporter, E. G. Boone; E. rep., L. W. Boswell; guide, R. C. Utterback; guardian, John Luftenberg; trustees, D. A. Yeiser, J. H. Ashcraft and Charles E. Richardson.

AN OLD STORY

It's Again Said That Taylor and Finley Will Be Brought Back to Kentucky.

REASON TO DOUBT STORY

Now Conceded Quay Will This Afternoon Win Easily the Pennsylvania Senatorial Fight.

BANK ROBBERY IN TENNESSEE SUNDAY

Lexington, Jan. 15.—It is rumored here that a detective has gone to Indianapolis with a requisition for Messrs. Taylor and Finley, alleged fugitives from this state.

Frankfort, Jan. 15.—It is denied here that a requisition has been issued for Messrs. Taylor and Finley. The denial is from official circles.

Indianapolis, Jan. 15.—Gov. Durbin refuses to say what action he would take if a requisition for Messrs. Taylor and Finley was presented to him. He also declined to say whether or not such a paper had been presented to him.

Harrisburg, Pa., Jan. 15.—It is conceded that Matthew Quay has votes enough to be elected United States senator this afternoon. The two houses of the legislature at 3 o'clock will take their first vote on the contest at the hour named. The first ballot, it is foolishly expected, will solve and end the great contest. Up until today the opposition had expected to develop enough to defeat Quay, but expected surprises are for the senator's re-election and against his defeat. The Democrats are likely to vote for J. M. Guffy for the high office. Several legislators are home ill.

Jamestown, Tenn., Jan. 15.—The People's bank of Livingston, Tenn., was robbed of \$5,000 Sunday night. There is no clew to the depredators, who came and departed without leaving any suspicion.

Wichita, Kas., Jan. 15.—The quarantine at the county jail, made necessary by smallpox appearing among the prisoners, has been raised and Mrs. Nelson, the W. C. T. U. member who was arrested for smashing up the furniture of a saloon, has been released on bond, which she at first refused to give. She says she will resume her smashing again immediately and continue it until the laws are obeyed and executed. Mrs. Nelson's husband sustains her in her action and declaration.

New Orleans, Jan. 15.—The two Holthouse girls and infant sister missing since Sunday have probably been kidnapped.

Anniston, Ala., Jan. 15.—E. K. Shaw killed his wife by cutting her throat. He then attempted suicide, but is still alive. The two had been arrested for swindling and agreed to die together.

Raleigh, N. C., Jan. 15.—The Democrats assumed control of the state offices today after being out six years.

INSPECTED THE HEATER.
Mr. A. J. Anderson, of the Illinois Central, was in the city today inspecting the heating apparatus at the new depot, which has lately been packed with asbestos.

MRS. MARTIN SMITH HURT.
Mrs. Martin Smith fell last evening at her home, at Seventh and Clay streets, and cut a painful gash in her head. Dr. Boyd using several stitches to close it.

VERSAILLES, O., Jan. 15.—Five masked robbers broke in the door of the home of Henry Stroker, six miles north, late Saturday night, bound and gagged Stroker, his wife and son, and forced Stroker to open his safe and give them \$850. The thieves stole a team from the barn and escaped.

FORCED TO OPEN SAFE.
Versailles, O., Jan. 15.—Five masked robbers broke in the door of the home of Henry Stroker, six miles north, late Saturday night, bound and gagged Stroker, his wife and son, and forced Stroker to open his safe and give them \$850. The thieves stole a team from the barn and escaped.

BEARING ON OTHER CASES.

BELIEVED SUPREME COURT DECISION IN NEELY CASE FORECASTS PUERTO RICAN DECISIONS.

Washington, Jan. 14.—The unanimous opinion of the supreme court, delivered by Justice Harlan, holding the law passed last session for the extradition of such offenders as Neely, to be constitutional, because in accordance with the treaty of peace, is regarded as having a most important bearing upon the questions now before the supreme court, which involve the question whether the constitution extends to annexed territories. If congress can legislate for Cuba, foreign territory, it seems that it should be able to legislate for annexed territory. In other words, the first impression made by the decision is that the United States has all the rights of a nation, and consequently holds and governs territory colonies in the way that seems most advisable.

There are those, however, who maintain that the question of the extension of the constitution is not involved in the Neely case. But then if that be so the Neely decision would seem to show that the court believes that the powers of the United States as a nation are broad.

LOCKED IN.

THE TRAMPS BROKE INTO THE CAR, BUT COULD NOT BREAK OUT.

Officer Tom Orr this morning received a telegram to meet freight train No. 155 and arrest two tramps who were locked up in a box car.

He met the train and arrested the men, who gave the names of John Phelan and Wm. Boyd.

Conductor Davis stated that they broke open the car, which was loaded with flour, to steal a ride from Henderson to Paducah. Their presence in the car was discovered, and they were locked in.

When the car was opened here they had little to say, and were locked up pending the issuance of a warrant for breaking the seal of a freight car.

NOTHING DEFINITE.

IF ANY NEGRO WAS HUNG, HE IS STILL THERE.

Nothing else has developed in regard to the negro alleged to have been found hanging to the limb of a tree down about the mouth of Perkins' creek.

All the information received here has been hearsay, and no one has yet showed up who professes to have seen the body. The Metropolitan papers of yesterday denounce the story as a hoax, and the officers here think there is nothing in it.

The Metropolitan Herald says the joke was started by "Fox" Davis, a baseball player, who created quite a sensation in Metropolis with his yarn, and is now enjoying a good laugh over it.

GIRL STOOD OFF MEN.

Lexington, Ky., Jan. 15.—Rankin Clemens, a farmer, six miles from town, was assaulted and robbed at the door of his home Saturday night and he will probably die. His daughter-in-law barricaded the house and stood the burglars off. Clemens, a miser, owns 1,500 acres of land and has much other wealth. His son Robert, committed suicide because of the drugging he was forced to do, and one of his daughters committed suicide because she married against her father's will and was disowned.

VERSAILLES, O., Jan. 15.—Five masked robbers broke in the door of the home of Henry Stroker, six miles north, late Saturday night, bound and gagged Stroker, his wife and son, and forced Stroker to open his safe and give them \$850. The thieves stole a team from the barn and escaped.

IT IS A MYSTERY

A Burglar Visits County Clerk Charles Graham's Office In the Night.

GOES THRO' EVERYTHING

Attempted to Break Into the Big Vault, But Was Unsuccessful—Object Only Surmised.

THE IRACKS INDICATE A WHITE MAN

The most mysterious burglary that has occurred in Paducah since the vault in the circuit clerk's office was rifled several years ago and all the indications stolen, was committed last night.

County Clerk Graham's office, in the southeast corner of the court house, was visited and every paper in the office examined and left on the floor.

When Deputy County Clerk Smedley opened up about 7 o'clock he was amazed at the spectacle that greeted him.

A very drawer, box and receptacle outside the vault had been thoroughly ransacked, and the papers were opened, inspected and consigned in the middle of the floor, where they lay in a most confusing mass.

Entrance to the office was gained through one of the windows on the east side of the office. Not being fastened down, it was comparatively an easy matter to hoist it and climb in.

A systematic search through the papers was then instituted, with what object is not known.

An effort was made to gain entrance to the big vault, but without success. A key was broken off in the lock, and Deputy Smedley's scissors were ruined in a fruitless attempt to manipulate the lock.

No papers, so far as is known, were either stolen or destroyed, and it is believed that the would-be thief was unsuccessful in his quest, whatever it was. He was evidently in search of some paper or record of importance to himself and did not seem disposed to molest any of the things to which he had access.

County Clerk Graham would prefer, however, that whenever burglars visit his office hereafter, they leave things more orderly.

Tracks were found outside the window, where the marauder jumped from it, and they indicate by size and shape that the man was white.

Thus far there is no clue to the perpetrator, and the affair bids fair to remain as much a mystery as the almost forgotten robbery of the safe in the circuit clerk's office.

GOELET DODGED HIS TAXES.

New York, Jan. 15.—The report of the appraiser appointed by the Surrogate to establish the valuation of Ogen Goelet's property, has been made public and shows that it was worth nearly \$7,000,000, instead of being a trifle over \$400,000, the estimate furnished by the family.

The full value of the personal estate is placed at \$6,541,3. Items allowed by the executors and for administering the estate reduce the personality to \$1,169,483. While the value of the real estate has never been determined, it is said to exceed \$455,000,000. The executors estimated it as "over \$5,000,000."

Some time this week \$500,000 will be paid over to Robert Goelet, the only son of the late Ogen Goelet, who came of age last Wednesday.

AGAIN LEFT OPEN.

GREER'S COUSIN BECAME Muddled In His Evidence.

The case against Given Greer, colored, for disturbing a colored congregation, was again left open by Judge Sanders this morning and the defendant was released on his own recognizance.

The case was left open that Greer could find the boy to whom he gave two fire crackers.

He said yesterday that he didn't know the boy's name, but in the meantime found it was his cousin, a small boy who was in court today and said Given gave him two packs of fire crackers Sunday a week ago, but it was before dark, while Given didn't claim to have had but two, and these he gave away about 8 p. m. The defendant looked very much disgusted at the way his accommodating cousin overdid it, and was given a chance to find a better witness by tomorrow.

MORE EVIDENCE.

IT MAY BE THAT JAS. HODGE DIDN'T "FRO" DE BRICK."

The case against James Hodge, colored, fined \$50 and costs yesterday for throwing a rock at Mr. Tom Boswell, and warranted for false swearing, having sworn he did not throw it, is becoming of considerable interest in police circles.

A young man named Green swore positively that Hodge was the one who threw the rock, as he never lost sight of him from the time he threw until overtaken and caught. He was further identified by a long rip in his coat.

Marshal Collins has received information that two gentlemen who saw the whole thing will swear that Hodge was not the one who threw the brick, and Judge Sanders has issued instructions to have them as witnesses tomorrow in the false swearing case.

CIRCUIT COURT.

THE RICHIE CASE FINISHED THIS AFTERNOON.

The case of Mrs. Sarah E. Richie against the Sun Life Insurance company, for \$150 on a policy on her son, was finished this afternoon, argued and given to the jury.

The suits of Harry and Nellie Braden and Harry Correll, against Terrell Brothers, for money alleged to be due as salary, are set for the 21st day of the term.

Messrs. W. S. Richie, Leo Potter and O. P. Leigh were excused from the jury, and Messrs. R. M. Allen, W. L. Reed and J. A. Calloway substituted.

Owing to the trial of another case, the Tobe Dennis case was not tried in the circuit court this morning. It will probably be tried tomorrow.

CREMATION WITH LIQUID AIR.

Chicago, Jan. 15.—After a protracted series of experiments, a Chicago physician is said to have succeeded in perfecting a method by which human bodies may be cremated with the use of liquid air at a cost which is nominal in comparison with the present expensive methods. The method involves the treatment of the body to be cremated with a chemical substance and exposure to a current of electricity in liquid air. The combustion is said to be perfect, practically no smoke or odor resulting.

OVER SIXTY KILLED.

Tacoma, Wash., Jan. 15.—Oriental armies say an explosion in the powder works at Hang Chow, China, December 20, killed between 60 and 70 persons. A portion of the powder works and scores of houses were destroyed. The accident is attributed to recklessness.

DEATH AT PRINCETON.

Mr. James Hubbard, aged 65, father of Mr. Ed Hubbard, the deputy revenue collector, died at Princeton a day or two ago. He was also an uncle of Mr. L. C. Perry, of the city.

MARRIED AT METROPOLIS.

Mr. Thomas B. Williams and Miss Emma Marshall, of Gilbertsville, Ky., were married at Metropolis Sunday and were in the city today en route home.

DEATH OF NO KNIFE.

Pender, Neb., Jan. 15.—No Knife, the last chief of the Omaha Indian tribe, is dead at the home of his son, Mathew Tyndale, on the reservation, aged 115 years.

The man who created the Wheeling stoga has just died at Wheeling, W. Va., aged 89 years and wealthy.

Immense Turtles.

Six turtles, each weighing from 400 to 450 pounds, are said to be about 250 years old, were recently shipped to Walter Rothschild, M. P., for his private zoological garden in London. They were captured in the Albenarie Islands, South sea. Mr. Rothschild now owns eighty-four tortoises of various ages and sizes. He has been collecting them for years from all over the globe. En route the tortoises received a whole cabbage a day for food.

Policeman Gets a Licking.

They have bright police in Kansas. At Seneca Robert Bell went to the town marshal and told him that Steve Riestter was hunting for him (Bell) with the view of giving him a licking. While the men were still talking Riestter came up and knocked Bell down and administered the licking before the officer could interfere. Which shows that often we wot without knowing what we are wotting.

Manuscript Thiers.

Mlle. Dore, sister-in-law of Thiers, has presented his manuscripts to the national library in Paris, a condition being that they shall not be utilized till after her death. It is believed that they will throw much light on French political and literary history.

Eloquence is relative. One can no more pronounce on the eloquence of any composition than the wholesomeness of a medicine, without knowing for whom it is intended.

TUESDAY, JAN. 15, 1901.

Senator Hoar was unanimously re-nominated for re-election by the Republicans of the Massachusetts legislature. The Democrats nominated Richard Olney.

The general belief is that the supreme court will, when it decides the questions now up, sustain the government in its island possessions. This idea has been strengthened by the court's decision concerning the extradition of Neeley, the Havana fraud.

How forlorn the future must seem when, after living 108 years, a man surmises that "the people are not of honest any more." Thomas Ward, of Baltimore, whose good or bad fortune it was to live to that long, when asked for his opinion of the world gave that as his chief charge against the present day and generation.

The Philippines evidently have their attractions and afford some business openings. One hundred and thirty of the enlisted men and twenty of the volunteer officers of the Thirty-seventh volunteer infantry, which sailed from Manila for home on the 10th, preferred to take their discharge and remain on the islands, where most of the men have secured positions paying \$75 per month, while the officers have details connected with government business.

DEMOCRATIC MUNICIPAL RULE.

One of the New York papers has just published a comparative statement of the increased cost within three years of municipal government in New York city. The average annual expenditures of the city are shown to have gone up from \$70,000,000 in 1898 to \$98,000,000, the estimate for the present year. What New York is getting for the annual expenditure of this enormous sum is a succession of Tammany scandals, a system of horrible spoils in which the chief actor is protected vice. It is asserted on good authority that the gambling houses of New York pay \$1,700,000 a year to be let alone. Stories of brutality in the city's largest hospital have multiplied of late. Leading members of the Tammany organization are accused of taking an immense toll from dens of crime of all kinds. Their subordinates are in the same line of business according to their opportunities. Public improvements cost far more than is paid in private contracts. Assessed valuations are subject to secret bribery. The developments are called astounding, but are not more surprising than the toleration of such villainous extravagance by a city of 600,000 voters.

GREATEST IMPROVEMENT.

THOUSANDS OF SCHOOL CHILDREN IN CUBA AGAINST A FEW THREE YEARS AGO.
New York, Jan. 15.—A. E. Frye, of Highland, Cal., who has just returned from Havana, where he spent two years as superintendent of public schools in Cuba, said last night: "There has been a great improvement in the condition of schools in Cuba. While there were not more than 10,000 pupils in 1897, there were 142,000 in May, 1900. The highest number ever registered before the war was 234,000, and the attendance never exceeded 17,000. There were no public schools in reality, under Spanish rule, and the school property had little or no value. Recently General Wood got the idea that many of the schools reported by me, and for which money was being drawn, did not exist. He gathered this by information submitted by subordinates. In my reports I reported the number of pupils, school rooms, while the military officers counted only the escuelas, school houses, thus confounding matters. But I soon explained the facts to the satisfaction of Gov. Wood.

"Under the system I have inaugurated no fraud is possible in the schools of Cuba. Under the old system there were ninety-four professors under pay in the University of Havana, where there were only 335 students."

Mr. Frye says that the Cuban children are very apt pupils and learn with great rapidity.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney Co. Testimonials free.

RELIGION OF THE RULERS.

THEY ARE OF VARIOUS FAITH, THOUGH MOSTLY CATHOLICS.

The religion of the head of a state or nation is usually the predominant belief of the nation itself.

Queen Victoria, as devout a Christian as the humblest member of the Church of England, is a great lover of hymns.

Wilhelm, the young and energetic German emperor, is a sincerely moral and religious man. He is a Protestant, believing in the tenets of Luther.

The husband of Queen Wilhelmina of Holland will surely be a Protestant, for she is herself the best and most regular worshipper in the Dutch church. Moreover, the law of her land will not permit her to marry a Catholic.

King Christian of Denmark, though personally inclined to the Lutheran church, holds most liberal religious views regarding his people and members of his family.

King Oscar II of Sweden is of the Protestant faith, a practical Christian, and an ardent student of the bible. Switzerland's president, Col. Edward Muller, is a Protestant and a member of the Church of Berth. He worships simply as a private citizen.

President Kruger, of the South African republic—if he can be called the president—is of course a member of the Dutch Protestant church.

The Emperor Francis Joseph, of Austria, is a devout Catholic.

M. Loubet, the most democratic president of France has known, is a Catholic.

King Victor Emmanuel, of Italy, is a Roman Catholic.

Charles I, of Italy, is a Roman Catholic.

Alfonso, the boy king of Spain, is a Catholic, his mother, the queen regent, attends mass every Sunday.

Leopold, king of the Belgians, is a Catholic.

The czar of Russia, the only layman of the Orthodox Russian church who is allowed to step foot into an altar, has his private chapel in both St. Petersburg and Moscow.

King George of Greece and Queen Olga are both devotees of the Orthodox Greek church. Their private chapel in Athens is one of the prettiest in Greece.

Nicholas, ruler of Montenegro, also lives according to the teachings of the Orthodox Greek church.

King Carl of Romania and his queen belong to the same church, as does Prince Ferdinand of Bulgaria.

King Alexander of Servia is of the Orthodox Greek faith.

The Sultan of Turkey is an extreme Mohammedan.

The Khedive of Egypt and all his family are also of the Mohammedan faith.

The shah of Persia is a Mohammedan.

The sultan of Morocco, a young man only 18 years old, is of the Mohammedan faith.

Menelik II, king of Abyssinia, goes to his native church every day in the year. Christianity was introduced into his country in the Fourth century.

The king of Siam is a Buddhist, and was for some time a priest.

The emperor and empress of Japan are disciples of Shintoism, the faith of their ancestors for centuries back.

Among monarchs the emperor of China is the greatest martyr to religious ceremonial. Altogether he spends more than 150 days a year in religious duties.

President McKinley is in every sense of the word a christian—regularly attending service at the Metropolitan Methodist Episcopal church.

The presidents of the South and Central American republics are nearly all Catholics, but only a few of them attend divine service.

THE PRESIDENT'S TERM.

In suggesting two reforms in the electoral system—one providing for extending the presidential term and the other insuring that the presidential candidate with the largest popular vote shall get the office—ex-President Cleveland touches on problems which very likely will have to be solved during the century, says the New York Sun, which adds: "As the new system of government grows in the extent of its operations and as the burdens resting upon the government become more and more cumbersome the need for such changes will increase. Already, as Mr. Cleveland points out, the four years term gives a president little more than a chance to inaugurate policies of state. Of their four sessions of congress in the term, two are so brief as to admit of little more than the passing of the necessary appropriation bills. The first comes at a time when the president is new in his office and has many incidental problems to consider. The last falls at a time when political consideration as to the forthcoming election tend to hamper legislation.

WIRELESS TELEGRAPHY.

INTERESTING EXPERIMENTS WHICH SHOW THE SCIENCE IS GROWING.

Consul Roosevelt at Brussels reports to the state department that a station has been established at La Panne, Belgium, for the exchange of wireless telegraphic messages between Belgium and England. La Panne was selected on account of its being the point of the Belgium littoral nearest the English coast and a mast of the Marconi system 130 feet high was erected there. The Dover Ostend mail boat Princess Clementine was fitted up with temporary apparatus for use in experimental trials. An additional mast was affixed to the foremast of this vessel, increasing its original height about sixty feet. From that extremity the telegraphic waves are projected toward each coast. A special room has been fitted up on the steamer for the instruments and from that room the cable is carried to the top of the extended mast. It is confidently expected to maintain communication between ship and shore for at least thirty miles, which is about half way across. With stations at La Panne and Dover those on board the vessel will be able to keep in touch with the land during the entire trip across.

Recent experiments showed that replies arrived with the same regularity and celerity as ordinary telegrams. When about forty miles from Ostend the captain was able to telegraph the station master at Ostend the probable hour of his arrival. Various telegrams were sent from the vessel to Ostend, Brussels, Dover and London, and the reception of each message was acknowledged promptly. Subsequently, the consul adds, a message was sent from the vessel to the station at Dover coast, Essex, a distance of nearly ninety miles, including many miles of cliffs and sea.

THE PRESIDENT'S TERM.

In suggesting two reforms in the electoral system—one providing for extending the presidential term and the other insuring that the presidential candidate with the largest popular vote shall get the office—ex-President Cleveland touches on problems which very likely will have to be solved during the century, says the New York Sun, which adds: "As the new system of government grows in the extent of its operations and as the burdens resting upon the government become more and more cumbersome the need for such changes will increase. Already, as Mr. Cleveland points out, the four years term gives a president little more than a chance to inaugurate policies of state. Of their four sessions of congress in the term, two are so brief as to admit of little more than the passing of the necessary appropriation bills. The first comes at a time when the president is new in his office and has many incidental problems to consider. The last falls at a time when political consideration as to the forthcoming election tend to hamper legislation.

"Neither of Mr. Cleveland's sug-

gestions is new, but as time goes by new reasons for considering them arise. Whatever may be thought of the proposition to make the election of the president dependent upon the popular vote, there is now, more than ever, good reasons for weighing the advantages to be gained by a lengthening of the presidential tenure. A president holding office for six or seven years, say, and ineligible for reelection would have time to formulate and carry out a definite policy. The nation would be spared the recurrence every four years of the disturbances created by a national campaign. Far more than all, perhaps, is the fact that the incentive to defer to questions of political expediency would be removed. The highest personal ambition of the president would be to make his one term of office the best possible for the interests of the country, even if his course met the disapprobation of the leading party bosses. He would have no inducement to curry favor with partisans for partisan purposes, and they in turn could bring to bear far less influence upon him."

That the need of a constitutional amendment permitting this extension of the presidential term is steadily growing is the opinion of many careful observers of American conditions.

IN THE AISLE.

She was a maid of honor
And I was his best man,
And in the aisle we loitered while
The wedding march began!
My heart was wildly beating,
My breast was full of pride,
For fairer of the fair ones there
Was that one at my side!

The people turned and whispered
And turned again to see,
And for awhile there in the aisle
The gods were good to me!
I saw the maiden blushing,
We two outshone the rest,
I heard her sigh, my head was high,
And joy was in my breast.

She was maid of honor
And I was his best man,
And there my pride ignominiously died,
And there my shame began!
Her train was long and splendid,
And suddenly, somehow,
My feet and it got blended—
And we are strangers now!

NOTES OF INTEREST.

In 1816 the first savings bank was established in the United States. In 1820 there were ten banks of this class, with 8,635 depositors. In 1899 there were 942 savings banks, with 5,678,000 depositors and deposits to the amount of \$23,300,000,000. How many savings banks, how many depositors and what amount of deposits will there be in 1901?

A Mr. Miles Darden, of Tennessee, weighs 1,000 pounds. Possibly no other nation can show up a man of equal weight.

The first Sunday school was established by Robert Raikes at Gloucester, England, in 1780. Now there are \$10,000 Sunday schools in the United States, with 2,500,000 teachers and 9,000,000 pupils. A movement is on foot to employ paid teachers in the Sunday school. Raikes tried this experiment, but abandoned it for the simple reason that he found that love of children and of Christ was a greater incentive to teach than money.

OPINIONS OF WOMEN.
Nature is in earnest when she makes a woman.—Oliver Wendell Holmes.

What is civilization? I answer, the power of good woman.—Emerson.

A woman finds it a much easier task to do an evil than a virtuous deed.—Plautus.

Women are too imaginative and sensitive to have much logic.—Mme. Du Deffand.

Fools on women trust; for in their speech is death, hell in their smile.—Tasso.

The most beautiful object in the world, it will be allowed, is a beautiful woman.—Macaulay.

There are three things a wise man will not trust—the wind, the sunshine of an April day and a woman's plighted faith.—Southey.

A woman, the more curious she is about her face, is commonly the more careless about her house.—Ben Jonson.

Trust not a woman when she weeps, for it is her nature to weep when she wants her will.—Socrates.

Woman is a charming creature, who changes her heart as easily as she does her gloves.—Balzac.

A GIRL'S BEST COUNSELOR.
"Trust your father's judgment of your men friends rather than your own at first," writes Helen Watterson Moody to girls, in the Ladies' Home Journal.

"The gay, witty, responsive young man who will probably most attract you, will not be the one who will be likely to have his serious consideration and respect. Talk over your men friends with your father, and see what healthy, unemotional, sane 'man standards' he will set up for you. I really think if a girl could have but one counselor in her love affairs, it would better be her father than any one else. A man's mind is a great tonic to the somewhat diluted intellect of a girl in her first sentimental experience."

Pan-American Outlook.

The Big Exposition Promises to Exceed All Expectations.

Exhibits From All the States and Countries of the Western Hemisphere—More Than a Score of Great Buildings to Shelter the Displays.

The Pan-American Exposition at Buffalo during the summer of 1901 will be not only big, but beautiful. In many ways it will exceed every similar enterprise in the history of the world, and chief among its merits will be the fact that everything can be easily seen and comprehended. System and originality are conspicuous in every detail. The revised plan shows a plot comprising 350 acres. From north to south

the grounds are about a mile and a quarter and from east to west half a mile. The grounds are situated in the northern part of Buffalo and are easily reached either direct or by transfer ticket by all the electric car lines constituting the city's perfect street railway system. On the northern side are the tracks of the New York Central Belt Line, to which the 25 steam railways entering Buffalo will have access during the Exposition. The southern portion of the grounds is a part of Delaware Park and contains a lake of irregular shape more than half a mile long, indicated by letter B on the ground plan. This part of the Exposition plot is already very beautiful, the city of Buffalo having spent many thousands of dollars in planting shrubs and trees of many rare species and in producing landscape effects that give to the eye a beautiful vista from every point of view.

The main southern entrance of the Exposition is on Lincoln Parkway, indicated by the letter A. At the left as you enter will be the beautiful Al-bright Art Gallery, built of white marble and costing upward of \$350,000. This is the gift of a citizen of Buffalo, Mr. J. J. Albright, and will be a permanent freehold building for public use devoted to art. On the right is the beautiful new bathhouse and shelter

flowers, and many plants of a highly decorative character will be displayed throughout the courts. The grounds outside the main group of buildings are also to be richly adorned with horticultural and floral features. The horticultural exhibits, to which about seven acres are devoted in the southern part of the grounds, will contribute much to the decorative effect. In this exhibit will be over 500 beds, many of them containing hundreds of plants of a single variety of flowers.

The exterior walls of all the buildings of the Exposition are to be of staff. All corners, corners, window openings and entrances are receiving very elaborate adornment in modeled plastic work. This ornamentation is of a far more elaborate and intricate character than heretofore used on any exposition. The roofs of all the buildings are to be of red tile, and the outer walls are to be painted in harmonious colors, giving a most pleasing effect to the eye.

This Exposition will stand pre-eminent in point of original sculpture. There will be more than 125 groups of magnificent original works by some 20 or more American sculptors of note. This grand scheme is under the personal direction of Karl Bitter, who was in charge of a similar work at the World's Columbian Exposition at Chicago.

One of the chief architectural features at the Pan-American Exposition will be the splendid Temple of Music. This will be the center for musical interests at the great All-American Exposition. Music lovers will naturally find their way to this building very soon after arrival upon the grounds, and both here and from the band stands in the great Esplanade and in the Plaza they will always find some

ter erected by the city of Buffalo. Crossing the bridge between the lake and the North Bay, the New York State building may be seen on the north bank of the bay. This also is of white marble, fireproof and a permanent structure. It will be devoted, after the Exposition, to the uses of the Buffalo Historical Society.

Continuing up the slight grade across the bridge, we now come to the "Approach" (D), where we get the first broad view of the wonderful group of buildings devoted to the various exhibit divisions of the Exposition.

It will be noted by reference to the ground plan that the buildings are grouped around a system of courts which have been aptly described as in the form of an inverted letter T. The transverse court, corresponding to the cross of the T, is the Esplanade, capable of accommodating 250,000 people. North of this, corresponding with the perpendicular of the T, are the Court of Fountains and the Plaza, which have almost to the northern limit of the grounds. On either side of the Court of Fountains are the subordinate courts known as the Court of Cypress and Court of Lilacs. These several courts have a combined area of 33 acres, which is far more extensive than

owing to the nearness of Niagara Falls, with its unlimited power, the large area of the courts and the arrangement of the buildings about these courts, it has been made possible to present an electrical display far more elaborate and grand than any before conceived. Some 5,000 horsepower and more than 200,000 incandescent electric lamps will be employed in this wonderful illumination. The centerpiece of this display will be the Electric Tower, a structure of superlative beauty standing between the Plaza and the Court of Fountains. This glorious work, designed by John Galen Howard, is 275 feet high. In its southern face is a beautiful cascade, 20 feet wide and 70 feet high, falling upon a terraced base. This cascade and all the fountains of all the courts will be richly illuminated at night in a great variety of colors, giving an effect of fantastic and enchanting beauty.

Standing in the Fore Court (E) and looking north, immediately in front, is the Triumphal Bridge (G). This bridge will be one of the most beautiful works of the Exposition, having four great piers surrounded and surmounted by sculptured groups modeled by Mr. Bitter and others. Crossing the bridge, we may see on the extreme right the

three great buildings erected by the national government for the shelter of its extensive exhibits gathered from all departments. On the extreme left are the Forestry and Mines, Horticulture and Graphic Arts buildings. At the northeast corner of the Esplanade and Court of Fountains is the Ethnology building; and on the opposite corner is the Temple of Music. Next north, on the right, is the Manufactures and General Arts building and on the left the Machinery and Transportation building. North of the Mall, on the right, is the Agriculture building and on the left the Electricity building. In the center is the Electric Tower. In the northeast corner of the grounds is the Stadium, with its large entrance building (Z). Opposite, on the west side of the Plaza, is the large entrance to the Midway. On the north is the Propri-

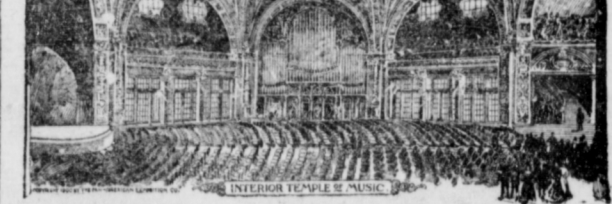

ety will deal art along to ward compresses its architecture is a free treatment of the Spanish Renaissance, it being original in form, with pavilions at the corners. The grand entrance is at the corner of the Esplanade and Court of Fountains, the spacious courts upon which most of the principal buildings of the Exposition have their frontages. The cornice and balustrade are of elaborate composition, the latter bearing names familiar to the musical world. The interior of the temple will be particularly fine in its sculptural and color decorations. The exterior of the building will be ornate in architectural features and groups of sculpture designed to illustrate the purpose and character of the building. A dome whose crown is 135

feet above grade and whose interior is brilliant with golden tints and other rich hues gives an imposing finish to the structure. Star shaped windows in the dome admit abundant light to the large auditorium. This will seat 1,200 persons, and with the additional seating capacity afforded in the balconies fully 2,500 persons can be accommodated. The decorations of the interior will illustrate such subjects as the grand divisions of Music, Oratorio, Grand Opera, Symphonic Music, etc. The sculptor will typify such subjects as religious music, lyric music, song music, heroic music, etc.

The great organ for the Temple of Music, which is to cost \$10,000, is under construction by Emmons Howard & Son, and already there is much eagerness among the leading organists of the United States to have the privilege of playing upon it during the Exposition. Two recitals by prominent exponents of this branch of musical art will be given each day. Concerts by the leading instrumental organizations of America and Europe will be given every day during the progress of the Exposition in the Music Temple and from the band stands in the Plaza, Esplanade and other parts of the grounds. In connection with the subject of music at the Pan-American Exposition mention should be made of the notable attractions to music lovers to be provided at the great Saengerfest of the North American Saengerbund, which will open in Buffalo on Monday evening, June 24, 1901.

No feature of the Pan-American Exposition will be of more importance than the exhibit of mines and metallurgy. The building to be devoted to these exhibits is one of a group of three magnificent structures, arranged in the form of a horseshoe, at the western boundary of the Esplanade. The Mines building is the southernmost of the group and is connected with the

horticultural building by one of the conservatories which flank the Horticultural building on the north and south. It is 150 feet square, and at each of the four corners it has a square tower 90 feet high. The eastern facade, looking upon the Esplanade, shows three high recessed arches between the towers, forming an open loggia elaborately and beautifully ornamented with plastic detail and decorated in brilliant colors. From this loggia are the main entrances to the building. There are also entrances in the corner towers. The ornamental detail is very picturesque and interesting. The design is by Peabody & Stearns of Boston.

Never was the science of metallurgy or skill in mining more highly developed than in the present day. The golden decorations of King Solomon's Temple are estimated to have cost \$250,000,000. Ever since the account in the book of Genesis of finding gold along the river Pison, a stream which flows from the Garden of Eden, there has been for and mining of gold has been

among the most fascinating industries. The production of gold throughout the world during the present century has steadily increased. The production in the United States in 1890 amounted to \$72,500,000, while that of the whole world is given at \$315,000,000, thus giving the United States the first position in production of gold of any country. In the matter of copper the United States produces 223,000 tons annually, or more than one-half of the world's output. The United States and Mexico are the two greatest silver producing countries. In other mining productions, the commercial value of which is considerably greater than that of the precious metals, the countries of Pan-America also lead the world. During the last year the coal output of the United States reached the enormous amount of 225,000,000 tons. This, as compared with Great Britain's output of about 200,000,000 tons and Germany's 100,000,000 tons, makes the question of the future production of coal, considering the rapid increase in

On the Midway—THE BEAUTIFUL ORIENT—Pan-American Exposition, Buffalo, 1901.

America and the fact that European production has reached its limit and is already declining, especially noteworthy at this time. The Canadian output of coal and iron is an item of great importance. The near proximity of iron and coaling coal and the advantages gives Canada a great advantage in the manufacture of iron and steel. The advancement of these industries in North America during the past decade has been phenomenal, the total production of the United States last year amounting in value to \$415,752,414, and of nonmetallic substances to a total of \$601,872,631.

Nearly \$3,000,000 will be required to construct and equip the wonderful Midway at the Pan-American Exposition. The greatest care has been taken to prevent any approach toward the "fake" show, and the visitor may rest assured that he will not be subjected to fraud or extortion so long as he remains upon the Exposition grounds. It is difficult to single out any attraction in this section as more prominent or worthy than another, for all have their special merit and novelty. The subject of the accompanying illustration, the Beautiful Orient, will represent life as it existed in the East before the advent of the modern tourist. Gaston Akoum, director of this concession, is arranging to have native representative characters to convey proper impressions of oriental customs and manners of living. He will have plenty of room in which to display the different salient features that would appeal in the strongest terms to people accustomed to our western civilization. A holy Mecca will be the meeting place of tired and worn pilgrims who will constantly arrive, make their offerings in the various mosques or religious temples and disperse. Eight streets will diverge from this objective point, each representing a distinctive local section of the orient. A street in Constantinople will be thoroughly Turkish, even to the vagabond dogs. Morocco will be represented by a street which will illustrate the life and habits of the Moors. Algerian life will receive attention, and a street will be borrowed from Algiers for the purpose. Typical illustrations in a like manner will

be taken from Egypt, Tunis, Persia, Tripoli and Turkey in Asia. While looking through these sections visitors could easily imagine themselves in the midst of the ancient city, the counterpart of which they are visiting.

A Redoubt Arab encampment will lead variety, and Sahara desert nomads will live in their interesting characteristic way. Natives from all countries will live on the grounds with their camels and different domestic oriental animals, cabins, tents and huts. Restaurants, tea-houses, shops and fruit stands for the sale of oriental goods of great variety will be provided. The Beautiful Orient is under the same management as the Streets of Cairo, which was so popular at the World's fair, though it will be three times as large. About 300 orientals will be employed in different ways with the attraction, a conglomerate eastern city, with distinct local features—a history, in a nutshell.

Within 500 miles of Buffalo are the homes of more than 40,000,000 people.

APPEAL TO OUR WHITE FRIENDS.

We desire to dedicate our Washington-street Baptist church to the Lord, the first brick of which was laid by the late Rev. Dupee, D. D., Sept. 5th, 1860. Now, to make this effort we are compelled to call on our white friends for assistance. We intend to send our agents to you as we cannot get along without your assistance. Please comply to our sympathy and sign your name to the amount you give. Now, who will give the first dollar? These cards that will be sent out will be signed by James Owens. God loves a cheerful giver.

UNLUCKY YOUNG MAN.

WALTER FISHER GOT THE WORST OF IT ALL AROUND.

Walter Fisher and Leslie Hobson, brothers-in-law, were presented in the police court this morning on a charge of fighting. Fisher had a painful wound on his left cheek. The evidence showed that Fisher went to Hobson's, where he had been staying, after his clothes, and his wife wouldn't let him have them. He claims he made several trips, and the last time was using obscene language, and finally struck his wife in the back. His sister took it up and young Hobson himself, who had been disturbed in his slumbers, came out with a stick, and after ordering Fisher away, struck the latter with the stick as he put a hand in his pocket. Hobson was acquitted and Fisher was fined \$5 and costs and his wife was advised to give him his clothes.

ATTEMPTS TO CRUCIFY HESSELF.

Sublime, Tex., Jan. 15.—Mrs. Neimann, living a few miles east of town, attempted to crucify herself by driving nails through her hands and feet. Large spots of blood were found on the wall, where, with one arm outstretched, she leaned and tried to drive the nails in the wall. Although her feet and hands swelled to more than twice their natural size and had turned blue, she would run about the yard kneeling and kissing the ground and carrying a bucket of water about, sprinkling.

MARRIED IN MAYFIELD.

Reports reached the city today that Mr. L. B. Blalock, a well known tobacco man of Mayfield, was secretly married in the county near his home a little time ago to Miss Ellen Davenport. The groom is not a young man by any means, and managed to keep the wedding a secret until yesterday. He is well known in Paducah. His bride had made her home with his family for a number of years.

DIED ON A HOUSEBOAT.

Mrs. Mahala McCreery, aged 32, died from childbirth at her home on a houseboat about the I. C. incline yesterday afternoon. The infant was born five days ago and is also dead. She leaves a husband, who works at the cordage factory, and two children. The remains were taken to Carmi, Ill., for burial.

NOT ASKED AGAIN.

Pity of the Michigan Politician Was Not Very Consistent.

M. H. Chittenden, the Michigan politician who died recently, dearly loved a joke. His own initials, "M. E. C.," he always insisted, stood for Methodist Episcopal church, which organization, could it have secured him, would have acquired a very lively member. "Mart," as Mr. Chittenden was familiarly called, partially lost his hearing some years ago and communication with him thereafter was one of the arts. Being the agent of the Standard oil company for a large territory, he traveled considerably, and on a certain occasion fell in with a couple of friends at Hillsdale, who invited him to go with them to dinner at the house of a resident acquaintance. One of them quietly said to the host: "Mr. Chittenden is an exceedingly pious man and likes to have the food blessed before partaking. You must invite him to ask the blessing." Accordingly, when all were seated, silence fell upon the company, while the host turned to Mr. Chittenden with "Will you ask the blessing?" "Up went Chittenden's hand to his ear, with his usual, quick, nervous gesture, as in a listening attitude he responded in a tone more decided than unctuous: "I've grown so all-fired deaf lately that if you've got to say anything to me you'll have to say it devilish loud." A roar from the two friends disclosed to Chittenden and the astonished host that they had been the victim of a practical joke. But "Chit" enjoyed it amazingly when he understood what had happened.

The John S. Hopkins from Evansville arrived and departed on return trip this morning with good business.

The Wabash arrived from Tennessee river this morning. She took a barge of corn to Johnsonville and left this afternoon for Evansville.

The R. A. Speed left this morning for Tennessee river, to the relief of many people about the wharf, as she wasted enough steam in blowing her whistle at short intervals to carry her 100 miles up the river.

The John K. Speed is due next Thursday from Cincinnati for New Orleans.

The H. W. Butteroff is due from Clarksville early tomorrow morning and leaves at noon for Nashville.

The beautiful barge, McAllister, was left here today by the Wabash for repairs. Capt. Douglas Jones is in command of the Wabash.

The City of Golconda cleared for Caseyville at 10 a. m. with a good trip.

There was 16.7 on the gauge this morning, a rise of 2 ft. 5 in. in 24 hours. Business on the wharf was very lively up to noon today, when it slackened up considerably.
